# Architectural Visualization for Multi-Family Residential Schemes

## Enhancing Client Relationships Through Collaboration

A key aspect of Construct Media's success lies in our collaborative approach. We work closely with developers, architects, and marketing teams to ensure that every visualization aligns with the project's vision and goals. This partnership-driven process allows for a seamless integration of creative and technical expertise, resulting in marketing materials that accurately convey the essence of each development.

## Innovative Techniques and Cutting-Edge Technology

Construct Media continually pushes the boundaries of architectural visualization by leveraging the latest technologies and techniques. Their team is adept at using advanced software and 3D modeling tools to create hyper-realistic renderings and animations. This commitment to innovation ensures that their visuals remain not only up-to-date with industry standards but also ahead of market trends.

## Future-Proofing Real Estate Marketing

As the real estate market evolves, Construct Media remains dedicated to adapting their services to meet emerging needs. Whether it's through virtual reality tours, interactive 3D models, or augmented reality experiences, they are at the forefront of integrating new technologies into their offerings. This forward-thinking approach ensures that their clients are well-equipped to engage with a tech-savvy and increasingly discerning audience.

In summary, Construct Media is more than just an architectural visualization firm. We are a strategic partner in the real estate development process, delivering marketing assets that not only captivate but also convert. Through precision, creativity, and innovation, they help bring visionary projects to life, one stunning visualization at a time.

# Portfolio

## Unveiling Excellence.

deep belief in the moral and aesthetic dimensions of architecture and art, emphasizing the integral role they play in shaping human experience and society.

**“ A well-designed space is like a well-written story; every detail matters and every moment is intentional.”**

# about us

Founded in 2005, Construct Media caters to the needs of real estate developers, investors, and destination marketers.

We have consistently achieved planning permission objectives. This not only reduces delays and costs but also aids in streamlined project management. Our pre-construction visuals enhance decision-making and minimize risk, leading to improved ROI for all parties involved.

Over the past 20 years, our clients have expressed great satisfaction with their investment. The master visuals we create serve as potent marketing tools, facilitating quicker sales cycles and fostering confidence.

## Still Images

Distinctive, striking and original CGIs for both internal and external marketing campaigns and brochures. Inspiring, atmospheric vignettes filled with detail. Product renderings. Images for competitions and concepts. These are the foundation of any project.

## Cinemagraphs

Impressive, captivating, and seamlessly looping animation. These are high-impact marketing tools suitable for website backgrounds, product pages, and social media use. They offer a degree of detail and realism that really sets the standard.

## Films/Animations

We create both interior and exterior animated films, frequently merging them with live action footage to capture the essence of lifestyle and neighbourhood scenes. We specialize in infographic and conceptual animations, time-lapse animations, and films. Our work doesn't stop there, we also create CGI and composite footage. This approach brings an extra dimension of movement, life, and narrative to every project.

## 360 Hotspots

We deliver dynamic, interactive VR experiences that are photo-realistic and 3D stereoscopic. These are pre-rendered for websites, smart devices, VR headsets, and installations. We ensure smooth navigation through spaces and incorporate animated elements for a realistic feel.

## Technical, AVR and Planning

We collaborate with trustworthy and seasoned professional photographers and surveyors to create Accurate Visual Representations (AVR). These are provided to compile detailed documentation, always accompanied by a well-defined method statement.
